In the 3D virtual tour, as soon as you cross the gate of Villa Erba, the video of Moritz Mantero will welcome you. He opens the doors of his private garden, a beloved place where he listens to nature, recreating the instinctive and profound relationship that belongs to every human being. In the short film, he traces the power of the garden on all five senses and reveals the enchantment of the lake, as well as telling about the creative sensibility of Orticolario and its digital version, The Origin. An exceptional director chooses what to reveal to the viewer: his niece Clelia de Calonne who, just 13 years old and thanks to an attentive and sensitive look, makes even those who are elsewhere and watch from behind the monitor feel part of that landscape.

DESIGNERS

Creative Space 6. "Viaggio nell'illusione"

Project by Arianna Tomatis . Mondovì (CN) . ariannatomatis.com

Seduction is very often used to delude and deceive. Just like the experience inside the labyrinth, where the path to follow creates illusion and deceives, leading to disorientation. In the video, shot in the suggestive Labyrinth of Masone di Fontanellato (PR), you will be seduced but not abandoned. You will get lost and then find yourself again.
